2017

OPERATING AND CAPITAL BUDGETS

November 22nd, 2016

2017 BUDGET INTRODUCTION

South King Fire & Rescue, also known as King County Fire Protection District #39, serves a population of nearly 150,000 citizens within the Cities of Federal Way and Des Moines, as well as to portions of unincorporated King County, a small portion of the City of Normandy Park, and the City of Auburn's west hill. The fire department is a stand-alone fire district organized under the auspices of Title 52 R.C.W., with an elected Board of Fire Commissioners providing governance and policy direction to the Fire Chief/Administrator and staff of the district. That direction includes the development and adoption of a fiscally responsible budget.

The 2017 budget signifies the fourth year since 2009 that assessed values have actually stabilized. Reductions from 2010 through 2013 reflected over \$7 million in lost revenues, or a 28% loss of funding, as compared with 2009. This resulted in reduced services including the closure of an Aid Car, reductions in firefighter and civilian staff positions through retirements and direct layoffs (over fifteen positions), the reduction and eventual closure of the Public Education Division in its entirety, reductions in Fleet and Facilities staffing, and negotiations with Labor relative to contract concessions during the worst of the recession. The members of South King Fire & Rescue have learned to try and do more with less, or at least to try and maintain services with reduced funding and staffing. In 2015 through 2017, we appear to have turned the corner in a positive manner, although we are still well short of 2009's levels (property values in 2009 were \$15,525,149,787 while 2017's are projected at \$14,959,390,950).

While not yet returning to levels previously seen in 2008 and 2009, the district has seen growth in its operations staff to a level which is currently sustainable. Seven (7) fire stations are staffed with engine companies (each staffed with one officer and two firefighters), and three fire stations are staffed with aid cars (each staffed with one officer and one firefighter). All firefighters and officers are emergency medical technicians who are also defibrillator certified, with defibrillator units maintained on all emergency response units. This is critical to our emergency response standard of cover as call volumes continue to increase, with projections reaching well over 20,000 emergency responses by the end of 2017. The ability to leverage SAFER Federal Grant funding to hire firefighters during 2013 and 2014 improved staffing levels at a time when emergency responses were increasing dramatically. The SAFER funds dropped off the books in early 2016; however, through the strategic use of revenues the fire district has been able to sustain the staffing levels achieved through the attainment of the aforementioned federal grant monies. For the citizens of the South King Fire & Rescue service area, this has provided a huge improvement in emergency response levels.

The expense side of the budget for 2017 includes a cost of living increase for all personnel established at 2.3% for the Seattle, Tacoma, and Bremerton area (comparing 1st half 2015 with 1st half 2016, CPI-W). In addition, it funds the second year of a two year

program staffing a “Community Medical Technician” (CMT) unit in partnership with Valley Regional Fire Authority (VRFA). This unit will continue to handle the “low acuity” medical incidents in both the South King and VRFA service areas (incidents not meeting the threshold of being an emergency), with funding allocated through King County EMS to support the unit. The expense side of the budget reflects a 3.69% increase in total operating costs.

On the revenue side, this budget reflects maintaining the statutory limit of \$1.50 per \$1,000 of assessed valuation as is available to fire districts. This will be the fourth year since 2009, as stated earlier, that the District will not face another decline in property values. We have used a 7.05% increase in Assessed Valuation as the final basis for the 2017 revenue projections. In addition, the maintenance and operations levy will augment the revenues by \$2.75 million, a significant reduction from the previous four years of \$3.5 million per year.

Property taxes on existing parcels are estimated at \$22,270,740 and new construction at \$168,346 for combined 2017 property tax revenue at \$22,214,696, which equates to a 7.05% increase, or an increase of \$1,477,259 (less projected delinquent taxes of \$224,391 at 1%). Total revenues for 2017, including the maintenance and operations levy and a FEMA Grant for compressors at \$113,000, are projected at \$28,503,438.

The 2017 budget was developed with the fire district’s \$39 million bond funding the vast majority of the significant capital equipment, apparatus, and facility expenses. Therefore, normal budgetary capital expenses have been kept to a minimum as the bond is providing a much needed infusion of capital dollars (by law, the bond monies can only be used for facilities, apparatus, and equipment, not for any personnel costs).

The strategic use of the maintenance and operations levy, and the use of bonds for significant capital expenditures, reflects our strategic planning effort and the emphasis we place on providing emergency services for the citizens we serve. The short term future appears secured, and the long term future looks brighter than previously experienced. Regardless of the challenges ahead, we will undoubtedly determine a proper methodology for ensuring that South King Fire & Rescue lives up to its mission statement:

“We help people by responding with professional Fire Department services.”

OPERATING BUDGET

Total operating expenses for 2017 at \$27,917,033 are projected to *increase* from 2016's budget by 3.69% or \$994,332 for the upcoming fiscal year. The significant areas of increase include a 7.2% increase in Valley Communications costs (or \$45,294 driven by increasing emergency responses), staffing a CMT unit in partnership with VRFA (mostly funded through grants), and increased L&I costs (injuries and illness increasing costs by \$69,654). In addition, all represented contract personnel will receive a cost of living increase at 2.3% as mandated by the Local #2024 collective bargaining agreement. Non-contract personnel shall also receive a 2.3% cost of living adjustment. The total operating budget expenses for 2017 are shown below as compared with 2016:

CAPITAL BUDGET

The capital reserves funding system has identified the following for purchase in 2017:

SCHEDULED MAJOR CAPITAL PROJECTS / EQUIPMENT	
SMALL EQUIPMENT	24,000
FEMA COMPRESSOR GRANT	128,000
ESO SOFTWARE FOR TABLET BASED EMS REPORTS	40,000
PROPERTY/DEBT PAYMENT	457,313
TOTAL	649,313

For 2017, the capital reserves budget reflects **\$649,313** in necessary equipment and maintenance which are over and above that which is being funded by the recently approved General Obligation Bond. It includes replacement emergency extrication air bags at \$24,000, \$40,000 for software in support of the ESO tablet based EMS reporting laptops, as well as \$128,000 to replace two air compressors (with \$113,000 funded through a FEMA Grant which is included in the District's revenues). It also includes the **FINAL** 2017 payment on the old District #26 bond issue.

All other capital expenses are being borne by the \$39 million General Obligation Bond approved by the citizens in 2015.

PROJECTED REVENUES

A detailed breakout of the 2017 projected revenues is shown on the following pages. Property taxes are based upon a projected Assessed Valuation of \$14,959,390,950 (for comparison, 2009's A/V was \$15,525,149,787). This is an increase of 7.05% on existing properties and new construction, coupled with revenues achieved through the approved maintenance and operations levy.

PROJECTED BALANCE SHEET INFORMATION

The following information summarizes revenues, expenses and fund balances. January 1, 2017 balances are based upon current budget projections. These are estimates and there will be some variances when actual year-end revenue and expense numbers become available in January.

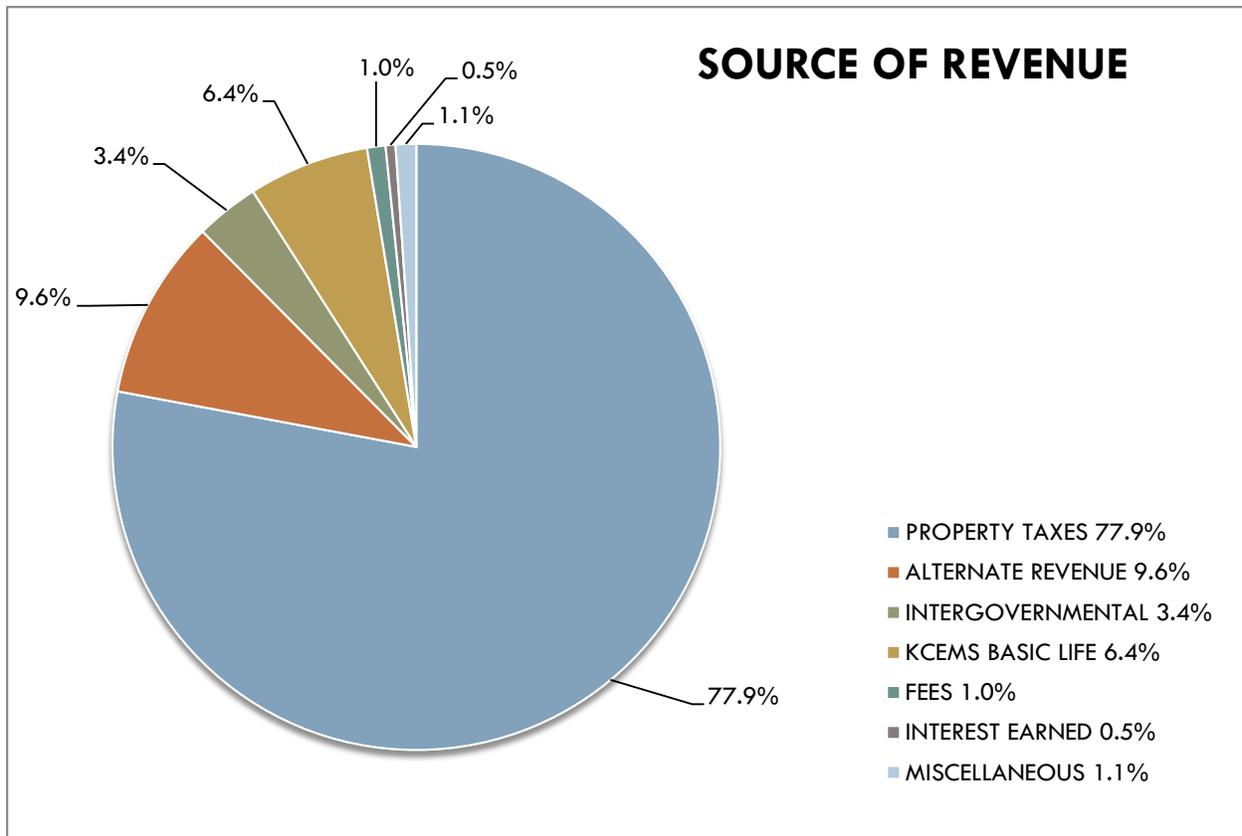

The Board of Commissioners has established a *minimum* goal of maintaining \$8,000,000 in combined General Fund and Reserve Accounts to have invested at the beginning of any given year simply to meet payroll and programmatic funding needs. We have met that goal heading into 2017 and 2018.

LEOFF 1 LTC / SICK LEAVE RESERVE	<u>1,000,000</u>
TOTAL OF RESERVES AND CASH	15,437,092

The funds available as of January 2018 will allow South King Fire & Rescue to meet its 1st quarter obligations as property tax revenues for the year typically are credited to our account in April (and October) of the year. In addition, this provides a funding stream to assist in our having to manage our way through the lean economic times created by the recession.

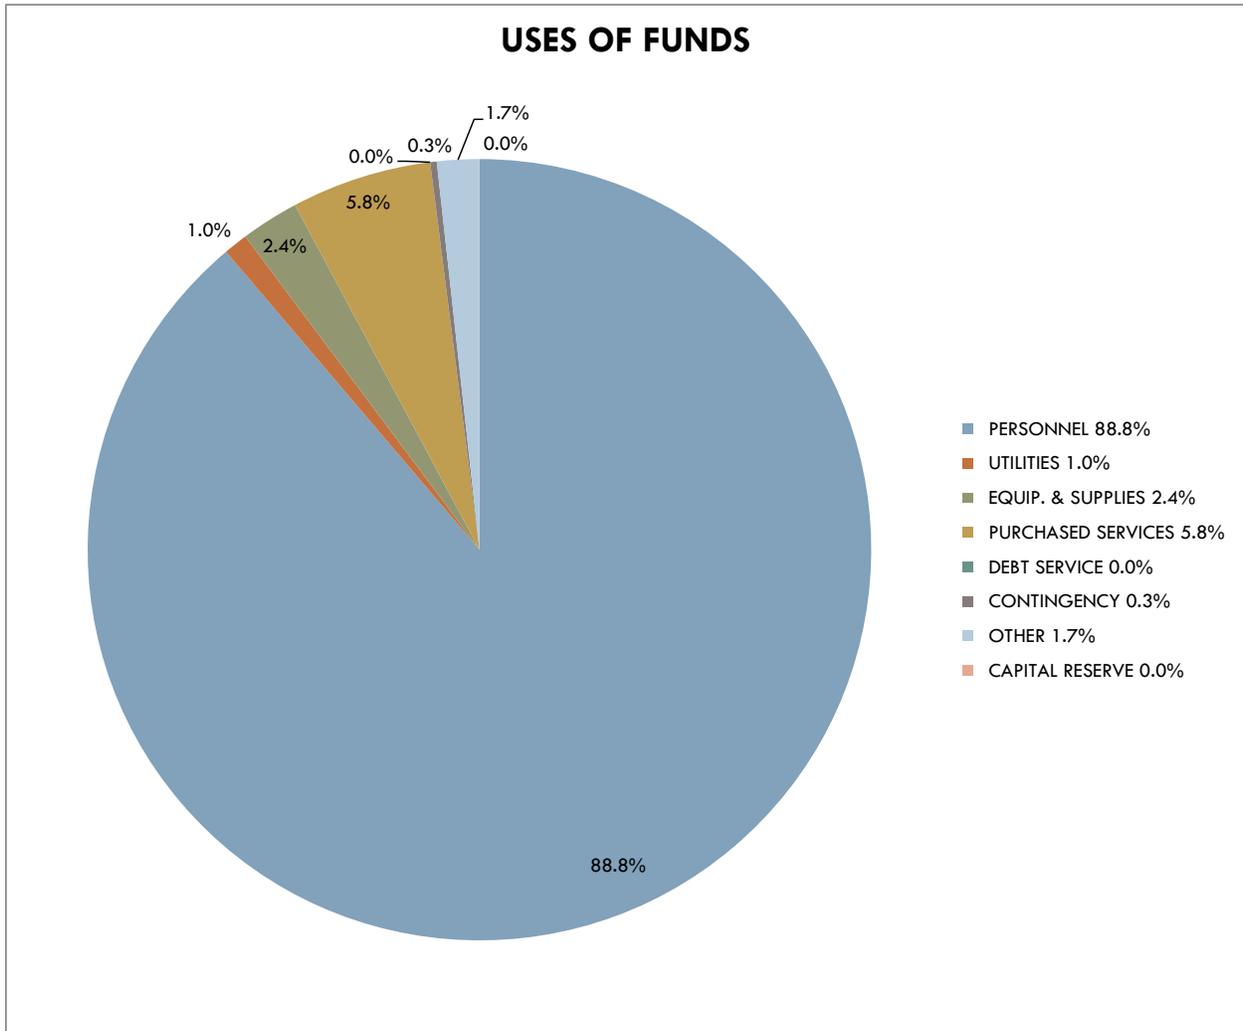

SOURCES OF FUNDS

Property taxes remain the primary source of funding for South King Fire & Rescue at **77.9%** of funding. This is actually a somewhat understated number since KCEMS Basic Life and the contract with Valley Regional Fire Authority (VRFA) are also funded from property taxes that are levied by other jurisdictions. In addition, the excess levy (M&) Levy is a property tax. When these are added to the total, the actual percentage from property taxes comes closer to **98%**. The VRFA contract is an intergovernmental contract between South King Fire & Rescue and VRFA for the protection of the west hill of the City of Auburn within our service area. KCEMS Basic Life represents BLS funding from the Medic One levy. In addition, the alternate revenue source (the maintenance and operations levy) is also a property tax collected for four year period from 2013 through 2016. Clearly, property taxes remain the primary source of fire department funding.

USES OF FUNDS

Personnel costs continue to dominate the uses of funds at 88.8%. This is to be expected since we are a service provider with low overhead and supply costs.

**REVENUE FORECASTS 2018
and BEYOND**

Forecasting the Future

Forecasting revenues has become a near impossibility with volatile markets, assessed values which fluctuate from a loss of nearly 8% in one year (2012 values collected in 2013) to an increase of nearly 15.15% (2014 values collected in 2015). Projections for 2018's assessed values, to be collected in 2019, are all over the map without any real sense for where they will eventually end up. Therefore, there are no solid projections to present to our community as the "unknowns" far exceed the "knowns" as we head into 2018 and beyond relative to revenues. However, it can be strongly stated that the Great Recession is definitely over.

The combination of the maintenance and operations levy, passed in 2012 and collected from 2013 through 2016, coupled with SAFER Grants which are no longer being collected, allowed the district to move forward and achieve necessary staffing levels in order to maintain respectable response times. The ongoing challenge will be to maintain these levels in these fiscally volatile times. On the Capital side, the fire district will be set for the long term with the passage of a \$39 million bond on November 3rd, 2015. This truly sets the department up to successfully replace needed apparatus, upgrade fire stations and equipment, and meet our current informational technology needs.

Should revenues not keep up with necessary expenditures in 2018 and beyond, the Board of Fire Commissioners and Administrative Staff will likely examine the following areas (amongst others) in order to maintain a balanced budget approach:

- Looking at past practices relative to reducing overall expenditures gleaned through the lean years of the recession (i.e. allowing normal attrition to assist in reducing expenditures, eliminating all discretionary expenses, etc.).
- Closely examining the key 2017 expense areas that increased relative to identifying a means to reduce these line items in 2018 and beyond (i.e. working with Labor relative to limiting personnel cost increases, and also examining the self-funded medical plan to ensure it is still the most efficient use of medical expenditures).
- Identifying potential revenue enhancements, such as a public/private partnership relative to patient transports for a fee utilizing the fleet of staffed aid cars.
- Utilizing our updated Strategic Planning process to involve all members of the department, and the community as well, relative to identifying new approaches to balance revenues and expenses in the most efficient manner possible.

Fiscal year 2017 is balanced from the perspective of the Operating Budget compared with Revenues. 2017 will see another year without a positive contribution to the Capital Reserves system. However, the \$39 million bond issue has set the department up for a strong future relative to equipment, apparatus, and facilities. The goal will be to return to utilizing Capital Reserves in the near future to replace necessary fire apparatus.

The challenges associated with 2018 and beyond will require strong leadership from the Board of Fire Commissioners and Administrative Staff, coupled with support from all members of the fire district, in order to maintain the Class 2 rated department that our community enjoys. Challenges will continue both on the revenue side, as well as on the expense side. With most fire entities utilizing a combination of the benefit charge, excess levies, property taxes, and bond issues to maintain and enhance revenues, South King Fire & Rescue's leadership must strategically consider funding options that will secure long term stability and enable the district to keep up with the significantly increasing emergency call volumes anticipated in 2017 and beyond.
